Guns and soldiers – the perfect fit. What better place for your guns to do their duty than the current war effort. Concerned about what to do with a gun that's sitting around? Looking for a respectful way to move your weapons to another competent appreciative owner? Posting a gun online could make you a target. Privately donating your guns to America's Military Charity is a safe, private, smart way to handle weapons. Your gift ensures the high morale, health and well-being of the troops and their families. Firearms secured our rights. Let yours defend those rights against America's enemies.

The guns you, your friends and family send us will preserve the American way of life. Our enemies are unrelenting. Your firearms helped define your life. Now, let them be your legacy defending America against all enemies. What better place for guns than to donate them to help America's Soldiers? *If you have a story to tell about a weapon, please accompany it with your letter telling that story. As you direct, we will archive it for history or have it accompany the weapon to the next owner so your story carries into the future.*
